

COVID-19 GUEST ADVISORY

It is important that all guests read and understand the following measures we are taking to offer the safest experience possible.

Visits by appointment only: enoteca@contizecca.it - +39 0832 925613

In case of groups, we reserve the right to organize different turns for the visit or not to accept the booking if the maximum capacity has already been reached.

The winery tour can be slightly reduced because in some areas we cannot guarantee an adequate ventilation.

Before the visit:

- at entry you'll find hand hygiene station available for your use;
- avoid physical contact before and during the whole tour;
- please postpone your visit if you are sick or experiencing any flu symptoms.

During the visit and tasting:

- it is recommended to wear masks during the whole visit;
- maintain physical distancing between yourself, staff and other guests during the whole visit;
- don't touch any device in the winery;

During the tasting:

- cleanse your hands before the tasting;
- we'll serve at the table with single portions;
- the minimum distance required by law will be observed between the tables;
- disinfection of the tasting area after each tour.

As far as we are concerned, we are sanitizing every area, surface and object frequently throughout each day and we guarantee adequate air renewal in the rooms.

Thank you for your understanding during these unprecedented times. Stay safe and drink wine!
